Chicago, September 18.—Two thousand five hundred neople listened to an address at Central Music Hall to-night by St. John, the Prohibition candidate for the Presidency. The speaker said there were none of the old issues before the people now, and that neither the Republican nor Democratic narty is what it was once. "Gen. Some of these Ulcers were not less than one-and, one-half inches in diameter, the edges rough, ragged and seemingly dead, the cavity open to the bone and filled with offensive matter. Everything known to the medican faculty was tried in vain. Gradually the bone itself became diseased, and then the suffering began in earnest. Bone Ulcers began to take the place of those hitherto on the surface. I became a mere wreck. For months at at a time could not get my hands to my head because of extreme soreness. Could not turn in bed. Knew not what it was to be an hour even tree from pain. Had reason to look upon life itself as a curse. In the summer of 1890, after ten years of this wretched existence, I began to use the CUTICCAR REMEDIES, and after two vesus persistent use of them the last Ulcer has healed. The dread disease has succumbed. All over the breast where was once a mass of corruption, is now a healthy skin. My weight has increased from one hundred and twenty-three to one hundred and fifty-six pounds, and the good work is still going on. I feel myself a new man, and all through the Cuticura Remedies.
